MEDICINAL.

JUST IN TIME.

A motorman in Chicago ran his car into the approach of an open bridge but stopped it with the fender actually overhanging the gulf below. He would not want to repeat the experiment because the chances are that he'd never again have the same good fortune.

Once in a while some one who has traveled to the very edge of the danger line of stomach disease stops just in time to save his health. But the majority of people go across the line, and slight symptoms of indigestion grow to disease of the stomach, involving the other organs of digestion and nutrition.

The first symptom of indigestion should receive prompt attention. Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the whole body by enabling the perfect digestion and assimilation of food.

"I have been suffering for about eight years," writes Mrs. H. Pierce, of Millersburg, Ky. "I have had several doctors to treat me—some for female weakness and others for stomach trouble, but received no relief. When I wrote you for advice what to do, I began to take your medicine and the effects have been good. I was under the doctor's care every summer before this. I took nine bottles, five of 'Golden Medical Discovery,' four of 'Fruit Laxative,' and two of 'Dr. Pierce's Kidney and Bladder Cure.' All that you claim for them. Believe I would have been in my grave if I had not taken them."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

FREE. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

MORE WAR TALK.

"War is inevitable," was the report received in London yesterday by a large British shipping firm from its agent at Yokohama, and most of the other dispatches from the Far East that have reached London are of equally pessimistic nature.

Lloyd underwriters yesterday put up rates to nearly treble what they were Thursday. The general rate on British vessels for the voyage out to the far eastern waters on Thursday was 3 shillings 4 pence per cent. Yesterday afternoon one of the most influential English owners of eastern tonnage could not get better quotations than 10 shillings per cent for his fleet, with a warranty of no blockade running and no carrying of munitions of war to belligerents. Where underwriters had written £1,000 lines on Thursday they would not take more than £100 lines yesterday.

The rate for Japanese and Russian vessels likewise advanced from 7 shillings 6 pence per cent. to 20 shillings and more. A good deal of speculative business was also done, the underwriters charging 30 and even 40 guineas (\$150 to \$200) on policies against a declaration of war only during the next three months.

In a dispatch to the London Daily Mail that papers' correspondent at Yokohama reiterates a statement made October 19 that the Russians are fortifying Yongampho and declares that yesterday he had authentic information that they have built a fort and are preparing to mount heavy guns there. The Japanese government, the correspondent continues, is conferring with representatives of all Japanese railroads with a view to effecting the most speedy mobilization of the army whenever this becomes necessary.

The Tientsin correspondent of the London Daily Mail reports that Japan has warned China that she will occupy some points in Chinese territory if Russia fails to evacuate Manchuria.

The Japanese legation at Paris and the French foreign office do not believe that war between Russia and Japan is imminent. They say the negotiations continue and they predict a peaceful termination of the conference at Tokyo.

From inquiries made in many quarters it is evident London considers the situation beyond question very serious, and anxiety is deepening.

The Vienna correspondent of the London Daily Telegraph says it is known there that Russia absolutely refuses to yield a jot, and that at the Japanese Legation, where hitherto a confidently peaceful view has been taken, the possibility of war is considered nearer. "All appears," adds this correspondent, "to hang on a single thread. The decision does not rest with St. Petersburg, but lies in the hands of the Russian Viceroy in the Far East, wherein is the danger that war might be proclaimed in a night."

Advices from Tientsin say it is learned there that Russia is negotiating with a steamship company of Shanghai to charter steamers belonging to the company to run between Shanghai and Port Arthur, the government representing that the present volunteer fleet is not sufficient to carry on the traffic.

MRS. FISH TALKS ON SOCIETY.

Mrs. Stuyvesant Fish has the following to say on the special question:

"The point that I want to make most clear and that I feel most strongly about is that I think our American standards of eligibility to the circle of the elect should depend upon the culture, brains and personal attractiveness of the individual rather than upon the size of his bank book. I am not at all unique in this opinion. All those who deserve any place in society think exactly as I do upon this subject."

"The trouble is that in America some people on account of their money are rated as members of the best society when they have no possible personal claim to such distinction."

"The dollar sign should not be the passport to American culture."

"There are many persons in the so-called professional classes who would be decided acquisitions to the best society. Society is the loser for not admitting them. In England or on the Continent they would receive a welcome among the most cultured or—which is the same thing—among the most fashionable people. That is why European society is more interesting than ours."

"People who are interesting in themselves for what they are or what they have done should receive the right hand of fellowship from the best of our social life."

"Let the woman take more interest in politics and questions of the day. In time our social center, I think, will be Washington. That is the logical spot for the combination of politics, literature, art and frivolity, which alone can make society interesting."

Gained Forty Pounds in Thirty Days

For several months our younger brother had been troubled with indigestion. He tried several remedies but got no benefit from them. We purchased some of Chamberlain's Stomach and Liver Tablets and he commenced taking them. Inside of thirty days he had gained forty pounds in flesh. He is now fully recovered. We have a good trade on the Tablets.—HOLLEY BROS., Merchants, Long Branch, Mo. For sale by Richard Gibson.
